

MORBARK MODEL 40/36 NCL WHOLE TREE CHIPPER

Benefits

- Direct flow discharge chute allows you to fill vans denser creating additional tons per load
- Morbark's proven drum design with a staggered knife pattern and carbide edged knife holders makes the machine more efficient
- Morbark's internal drive feed system has less moving parts creating a high performance, low maintenance machine
- 40/36 high production rate increases fuel economy, reducing operating costs
- Morbark Integrated Control Systems allows for diagnostic monitoring to reduce down time

Morbark Integrated Control Systems
The ultimate diagnostic system; monitors hydraulic pressures, temperatures, clutch systems and engine efficiency while automatically adjusting to maximize performance.

Discharge
Directional flow discharge chute is hydraulically adjustable by remote control for maximum chips loads.

Infeed System
Aggressive live floor and large top feedwheel with internal drive ensure positive feed of brushy tops and limbs.

Drum
Morbark's proven drum with staggered knife pattern and carbide edged knife holder.

SPECIFICATIONS
